- how to submit a written response for inclusion in your case file
- when your case is adjudicated / when the outcome is available

- when / how instructors know to replace an 'N' grade on your transcript

***If the student's primary campus is a different University division (e.g., ESM dual degree, Simon, Warner), the suspected honesty violation will be processed using the procedures of that division. Most cases involving AS&E graduate students fall under AS&E honesty policy, except in cases where grad students engage in dishonesty during sponsored research. Contact [the dean](#) of graduate studies to start the AH reporting process.
