This form is to be used when requesting to add a new FAO or change an existing FAO in UR Financials system. FAO = Financial Activity Object (FAO). Please follow these general guidelines to expedite your request:

1. Please complete electronically all fields on the form above the “Central Finance Use Only” line
2. Action Requested – indicate whether the request is to:
 - a. Add – add a new FAO.
 - b. Change – change an existing FAO. Include only the items that you want changed.
3. Effective Date of Change – when transactions should start posting against the FAO.
4. Type of FAO Request – is this a request for an Operating Program, Project, Gift, etc.? (see types of FAO requests below on next page or page 3.)
5. FAO Title
6. Funding Source – examples include allocations, gifts, operating budget, and user fees. Only project FAO's should be financed through external debt sources.
7. Purpose – detailed description of activity to be recorded on FAO is necessary in order to assign correct NACUBO, A21 and Management coding.
Examples: To support Dr. Smith's research lab, please include post doc support (a budget should be attached). Gift to support graduate student for summer session in "University subject" (a budget should be attached).
8. Justification – clearly state why an existing FAO cannot be used or other supporting rationale.

UBI is regularly carried on income or loss generating activity that is not substantially related to furthering the exempt purpose of the University.
