

The College OneRochester Campaign

OneRochester, our workplace giving campaign, provides an opportunity for you to support something that matters to you.

There are many ways you can participate, funding areas such as scholarships, research, enhancements to our classrooms or student programs.

Our Advancement team is available to help you explore opportunities for giving to your department or other areas of interest to you.

Or, choose from the options below to make a gift that is most meaningful for you.

ROCHESTER ANNUAL FUND

The Rochester Annual Fund supports the special educational and financial needs of our students, providing seed money for the start-up of innovative programs and making funds available for “unexpected” opportunities to improve and enhance learning College-wide.

SCHOOL OF ARTS & SCIENCES ANNUAL FUND

There are many changes taking place at the University of Rochester designed to enrich and expand the opportunities for our students. Continued improvements to learning spaces, development of new programs, and curricular changes to educate our students in emerging fields, prepare our students well for future success in a rapidly diversifying workplace and help maintain our position as one of our nation's leading private research universities. Through your support, students have access to some of the most cutting-edge researchers, curricula and learning facilities collegiate life has to offer.

FRIENDS OF ROCHESTER ATHLETICS

From highly competitive sports teams to fitness classes, the University of Rochester's Department of Athletics and Recreation is a significant component of the University's educational mission. Focused on growing nationally competitive programs, the department attracts the best students and coaches from around the world, provides enriching experiences beyond the classroom, and enhances campus life and the University environment. Your support provides resources to the athletics department or the athletic program of your choice.

RIVER CAMPUS LIBRARIES

Your gift to the River Campus Libraries Annual Fund helps us to build the deep and strong library collections necessary to support the rigorous Rochester curriculum, as well as provide increased technology and digitization. Whether in print or online, the Libraries' collections are an essential element to our vibrant intellectual community.
