

BIO 228a&b International Genetically Engineered Machines

Applications to Majors

*Please note application to majors is contingent upon successful completion of both courses. Partial credit for one course cannot be applied to UPBM majors. Be sure to further discuss with the track coordinator of intending major.

BA Biology (BIO)	Fulfills 2 diversification electives
BS Biochemistry (BBC)	Fulfills diversification elective and BCH 308 laboratory requirements
BS Cell and Developmental Biology (BCD)	Fulfills diversification elective and BIO 268 laboratory requirements
BS Computational Biology (BCB)	Fulfills diversification elective
BS Ecology & Evolutionary Biology (BEB)	Fulfills 1 – 2 diversification electives
BS Microbiology (BMB) / Biotech Certificate	Fulfills the diversification elective and credit for an upper level lab counting for the biotechnology certificate, but cannot replace MBI 221w lab
BS Molecular Genetics (BMG)	Fulfills diversification elective and BIO 268 laboratory requirements
BS Neuroscience (BNS)	Fulfills diversification elective
BS Biology General Track (BSG)	Fulfills credit for 1 advanced elective and 4-credit laboratory requirements
