

The AS&E Dean for Research Office is pleased to present:

**“Funding Opportunities at the National Science Foundation:  
An International Perspective”**

**Tuesday, October 16, 2018 - 1:30-2:30 Goergen 101**

**Charles Estabrook, Program Officer for the NSF Partnerships in  
International Research and Education (PIRE) program**

Chuck Estabrook has been at the National Science Foundation since 2010. Since 2014, he has been a Program Manager in the Office of International Science and Engineering where he currently manages the Partnerships in International Research and Education (PIRE) program. Prior to that, he was in the Earth Sciences Division at NSF where he was a Program Manager for EarthScope. From 2001 to 2010, Dr. Estabrook helped build the seismic monitoring network of the Comprehensive Nuclear Test-Ban Treaty Organization in Vienna, Austria. From, 1992-

1999, he was a Research Scientist at the Geoscience Research Center (GeoForschungsZentrum) in Potsdam, Germany. Dr. Estabrook's research has been on the nature of the earthquake source and the nature of the Earth's Upper Mantle. He received his PhD in 1992 in Seismology/Geophysics from Lamont-Doherty Earth Observatory of Columbia University.
