Meet Professor Smith. You have just been assigned as her research assistant.

Hello, my name is Julie Smith. I hope you enjoy working as my research assistant. I just finished collecting data from some local teachers and I need it entered into SPSS. I hope you can help with this project. I need you to create the data set structure and then enter some of the paper survey responses. Another student is working on entering the rest of the data. When you are done, you can add his responses to yours.

Download the Homework instructions and create your own SPSS dataset from the survey responses and codebook provided. After
