Blackboard

Deliver Content:

Share files, images, links, and video (via Panopto).

Text-based Discussion Boards:

Generate conversation around your course topics outside of class.

Online Quizzes and Tests:

Check student understanding with online quizzes or tests. Many question types are available, some of which can be auto-graded. Review individual results, or overall class statistics.

Assignment Collection:

Collect electronic assignments. Grade and markup online (certain file types).

Blogs and Journals:

Students can keep a weekly diary of their work that is either shared with the class (blog) or private (journal).

Gradebook and Rubrics:

Securely share individual assignment grades with students. Create and use rubrics for grading.
