

Course Evaluation and Feedback

- Automate evaluation and feedback campus-wide
- Conduct formative and summative evaluations
- Schedule Beginning, Middle, and End-of-Term surveys
- Create questions based on specific instructors and course learning outcomes
- Allow instructors to add questions to course evaluations inside LMS

Curriculum Management and Outcomes Mapping

- Centrally manage learning outcomes and rubrics
- Align institutional, program and course learning outcomes
- Visually design developmentally appropriate curriculum
- Simplify curriculum alignment and review
- Unique configuration for each academic program
- Easily revise programs and curriculum maps through versioning

Course and Syllabus Management

- Centralize access to course information campus-wide
- Access current and archived course syllabi
- Provide students easy access to standardized syllabi
- Seamless LMS integration for faculty and students
- Showcase alignment of course, program and institutional outcomes

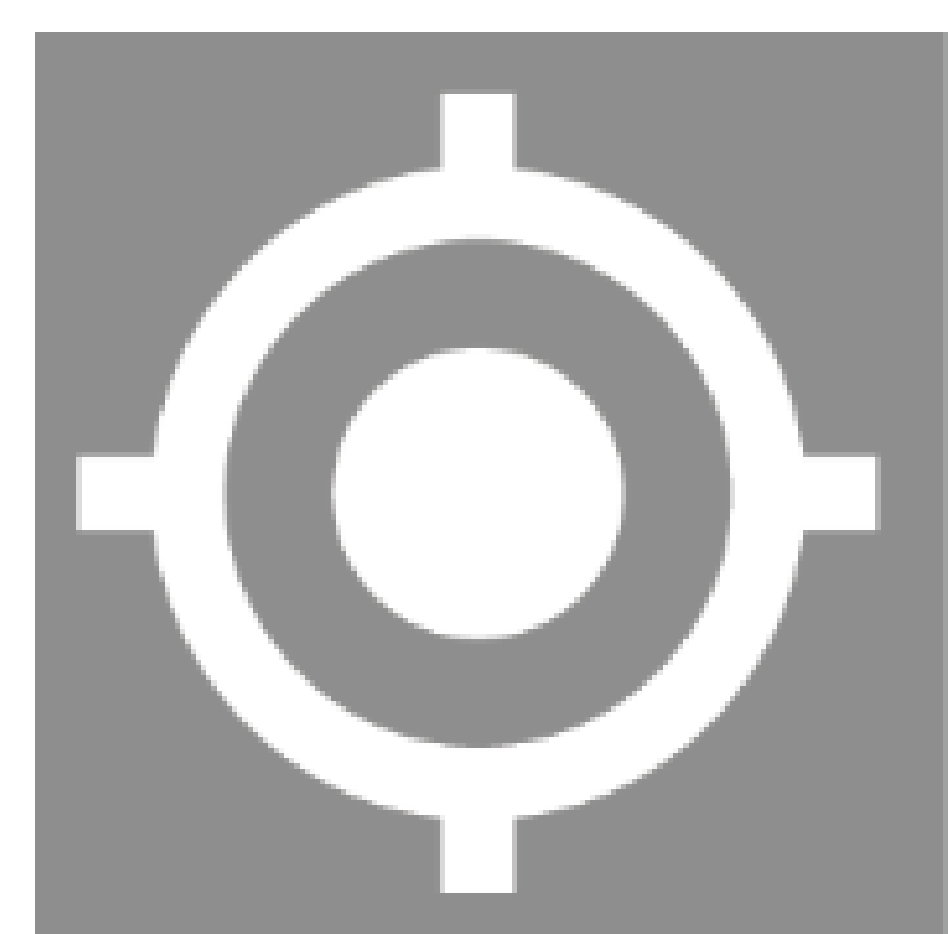

Outcomes Assessment and Evidence Collection

- Consistent Assessment Data Collection Campus-wide
- Easy-to-use Forms and Accessible Reports
- Automated Assessment Scheduling and Reminders
- Integration with LMS Gradebook
- Link course assignments to learning outcomes
- Easy Rubric Based Grading
- Individual Student Based Assessment
- Integrated Outcomes Portfolio as Evidence of Student Work with Artifacts

Self-Study and Accreditation

- Streamline self-study generation campus-wide
- Easy to complete self-study reports
- Preloaded, customizable templates for the professional and regional accreditation standards
- Ability to copy paste tables from other sources i.e. MS Word
- Automatically import existing data from other Solutions in AEFIS
- Quality presentation output which can be delivered to reviewers
- Schedule periodic self-study updates and reviews)

Strategic Planning and Data Collection

- Streamline strategic planning campus-wide
- Track progress using graphical dashboards and built-in reports
- Support both academic and non-academic units
- Create both learning and non-learning outcomes, KPIs, and performance rubrics
- Align strategic initiatives with outcomes
- Track strategic initiatives, outcomes, their progress, related tasks, timelines
- Collect updates and feedback on strategic plan items using survey-like tools
- Schedule periodic status updates and reviews

Outcomes Transcript and Competency Portfolio

- Empower students with evidence of their learning
- Demonstrate student performance throughout the curriculum
- Leverage existing accreditation and assessment processes
- Communicate to students the relationship between institutional goals and their specific disciplines
- Provide a meaningful way to communicate educational value-add in courses and other educational experiences (i.e. Internship, student life)
