#### Share:

Share a whiteboard or anything on your screen with students to facilitate a classroom environment.

#### Persistent Meeting Space:

Integration with Blackboard allows for a persistent meeting “room” from one class session to the next.

#### Joining Options:

Students can join by computer, mobile device, or phone.

#### Communication:

See and hear each other with full audio/video capabilities. Options for text-based chat are also available.

#### Breakout Rooms:

Conduct separate group discussions within breakout rooms. Instructor can visit each breakout room independently.

#### Recording:

Record your class meetings for later playback by students. (Share via Panopto within your Blackboard course).
