

LLE Engineering Division
Electronics Shop
Location of Facility: LLE, Room 117

Chris Deeney	LLE Director
Charles Sorce	Engineering Division Director
Greg Brent	Electronics and Controls Group Leader
Troy Walker	Electronics Shop Manager (585-275-6656)

Description of Facility:

The Electronics Shop provides the full range of electronics services from engineering, design, manufacture, assembly, and test to repair. The shop specializes in design and fabrication of highly sensitive and fast instrumentation, detection, data acquisition and control systems employing embedded microprocessor hardware and software, power supplies, RF analog designs, etc., to support specialized research projects. Printed circuit board layout and manufacturing facilities exist in-house.

The services of the Electronics Shop are available to any University customer. The present shop rate is **\$83/hour**. Estimates are available by contacting [Troy Walker](#). Services are requested by providing an account number and approving the estimate.

Effective: 10/2022
