Supplier Diversity Software Update

Yi-Li van den Berg & Mario Roque

September, 2022

Summary of Supplier Diversity Software

- SupplierGateway who is the partner of Vizient has been selected as the Supplier Diversity Software (Software) provider in August

- What is the Software?
    - A cloud based application
    - Validating a database of certified Minority and Women Owned Enterprises (MWBEs)
    - Available Tier I and Tier 2 spend
        - ✓ Tier 1: Direct spends with MWBEs
        - ✓ Tier 2: MWBE spends with a prime supplier
    - Manage capital/construction projects
    - Determine economic impact

Purpose of the Software

- Why the Software?
  - Currently there is no centralized tool for MWBEs
  - Establish a baseline for MWBE spend
  - Continue validating the MWBE certifications
  - Access to registered MWBEs
  - Manage capital projects for Facility & Services
  - Measure the successes

Software Offerings

Supplier Connection

The Supplier Connection online tool offers easy access to Tier I purchasing reporting with Vizient-contracted certified diverse suppliers as well as Tier II reporting — data submitted by Vizient suppliers who in turn source products and services from diversity suppliers — to support your diversity initiatives.

Annual Subscription Fee: $0

Includes

Tier I Reporting
Member Vizient PRS Tier-1 diversity spend

Tier II Reporting
Vizient Supplier reported Tier-2 diversity spend

Source & Search
Members can source and search for diverse suppliers

Includes

Link from member supplier portal via SSO
Access for Participants with their single sign on

Admin - Define "Local"
Ability for Participants to define their "local" parameters

Tier I Reporting
Member Vizient PRS and total Participant's Tier-1 diversity spend

Tier II Reporting
Member-contracted and Participant's non-contracted Tier-2 diversity spend

Project/Construction Reporting
Project-based diversity reporting by Participant contractors and primes

Sourcing
Ability for Participants to search and post contracting opportunities for national, local, and community suppliers

Diversity Certification Monitoring

Procure-to-Pay
Full suite of procurement tools including Requisition, Bid, Purchase Order, Invoice & Virtual Payments (rebates available)

Financial Risk Monitoring
Financial risk monitoring of 1000 of participant's selected suppliers - powered by Experian

Inclusion Activity Dashboards
Participant reporting by demographic totals of suppliers by diverse certification and opportunities by demographic

Economic Impact
Participants PRS to measure economic impact on jobs; projected spend widget to execute "what if" economic impact scenarios

Full Spend Reporting
Annual local, state, & federal reporting report generation using Participants' spend

Data Enrichment - up to 100K records
Enrichment of Participants' supplier records with diversity attributes and certifications

Webinar Console
Functionality to manage Webinar meetings

Supplier Onboarding & Approval
Ability to invite suppliers to provide documentation required to be onboarded. Data can be reviewed and approved on the platform.

UNIVERSITY of ROCHESTER

Software Implementation

- Purchasing and Facility and Services are working with Vizient/SupplierGateway to implement the Software

- New Users
  - Identify one representative/user for each department to access the database
  - Vizient/SupplierGateway will provide training
