

Using Walk-Up Pay Stations

Cash, credit card, and validation accepted

Walk-Up Pay Station Locations

- Strong Memorial Hospital Garage
 - Ground Floor Elevator Lobby
 - First Floor Elevator Lobby

Need assistance?

Push the intercom button.

1 SCAN

If using a validation:

With the validation sticker attached to the center of the entry ticket, scan the entry ticket by holding it with the barcodes facing the scanner, about 3-4 inches away. The scanner will beep twice, reading both barcodes. The display will then show "Proceed to Vehicle." Go to step **4**

If paying with cash or credit card:

Scan the entry ticket by holding it with the barcodes facing the scanner, about 3-4 inches away. When the scanner beeps, the ticket is read, and the fee will appear on the large display.

2 PAY

Pay the parking fee with cash or credit card:

- **Cash:**
Insert bills into the bill acceptor. Change will dispense from the dispenser.
- **Credit:**
EMV (chip) – Insert your credit card with the chip at the top and facing you. Leave inserted until the payment is approved and a thank you message is displayed.

NFC (tap) – Tap and hold your credit card to the device until green lights illuminate and payment is approved with a thank you message.

Swipe – Slide your card's mag stripe on the reader. Upon payment approval, a thank you message will display.

3 Take the receipt.

4 Keep the entry ticket with you. Proceed to your vehicle and exit the garage. As you approach the exit gate, it should recognize your vehicle and lift automatically. If the gate doesn't lift, scan the entry ticket at the exit barcode reader, similar to how you scanned it at the pay station.

See reverse side for **Exit Lane Pay Station** instructions
