Mac OS Pay-for-print installation, Pharos 8.4

This guide describes the steps to set up Pharos Printing on your Macintosh computer. After installation, you will be able to print wirelessly to the University’s pay-for-print system. If you have any questions, please contact the IT Helpdesk at 275-2000.

Please Note:

You must have Administrator access to complete this installation.
You must remove any older versions before proceeding with installation.
Installation begins on Page 4.

Mac Uninstallation Steps:

A shortcut to the uninstaller is included on the Popup.dmg disk image. Double click 8.2 Installer (fig 1) to remove your existing installation.

The uninstaller can also be run from /Library/Application Support/Pharos/Utilities/Uninstaller.app
