RIVER CAMPUS
LIBRARIES

December 10, 1934

Dear Dick,

I wish this time to be a letter it hasn't, I can't find any new whips of our campus, here is where we'd like to spend our spare time.

College has been grand so far but I shall be glad to be home at Christmas.

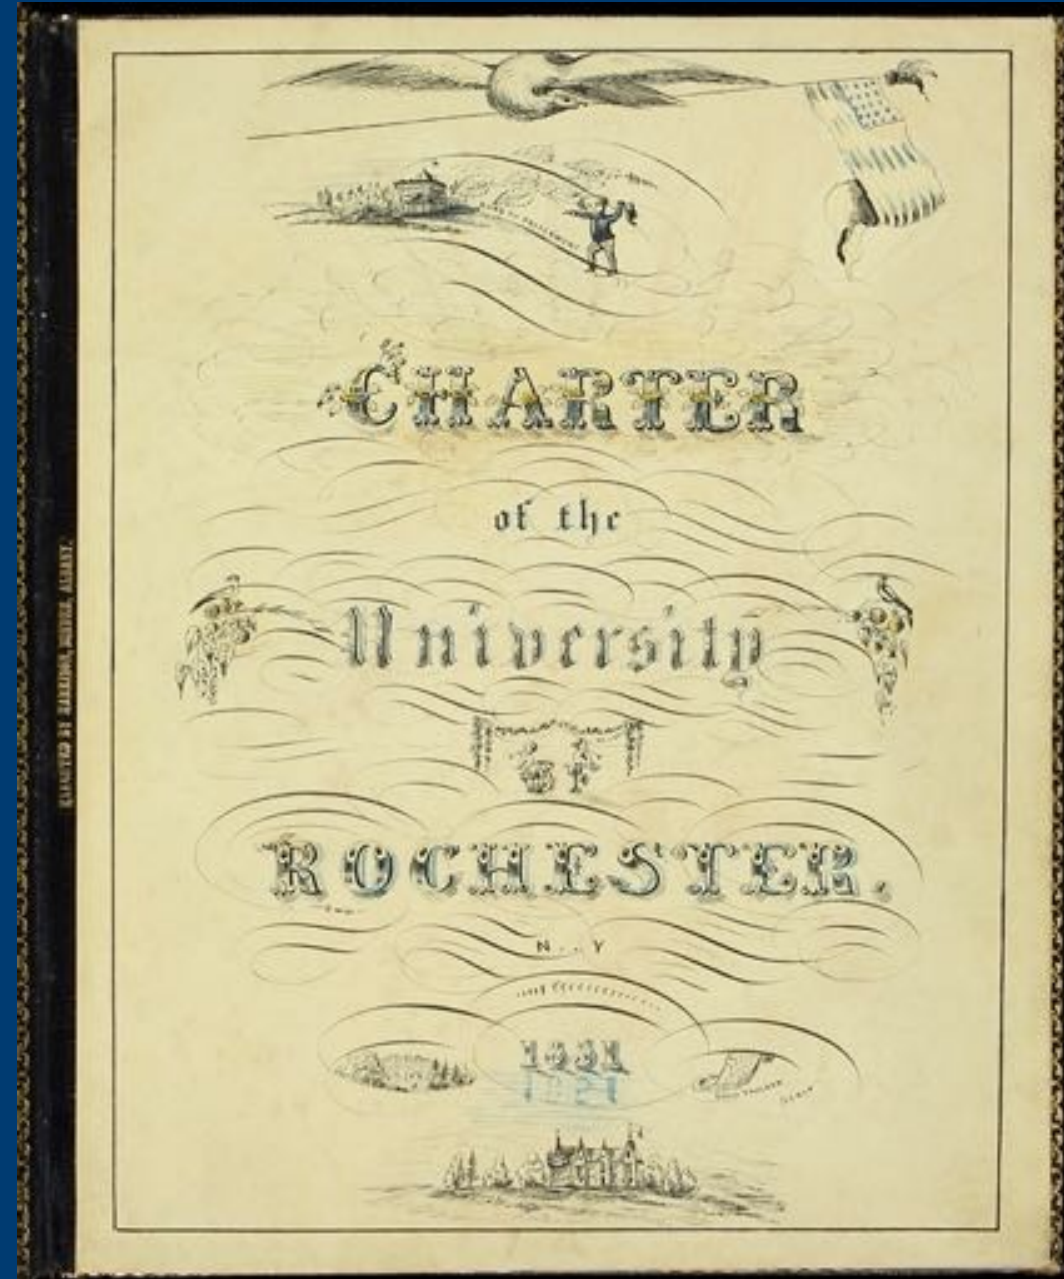

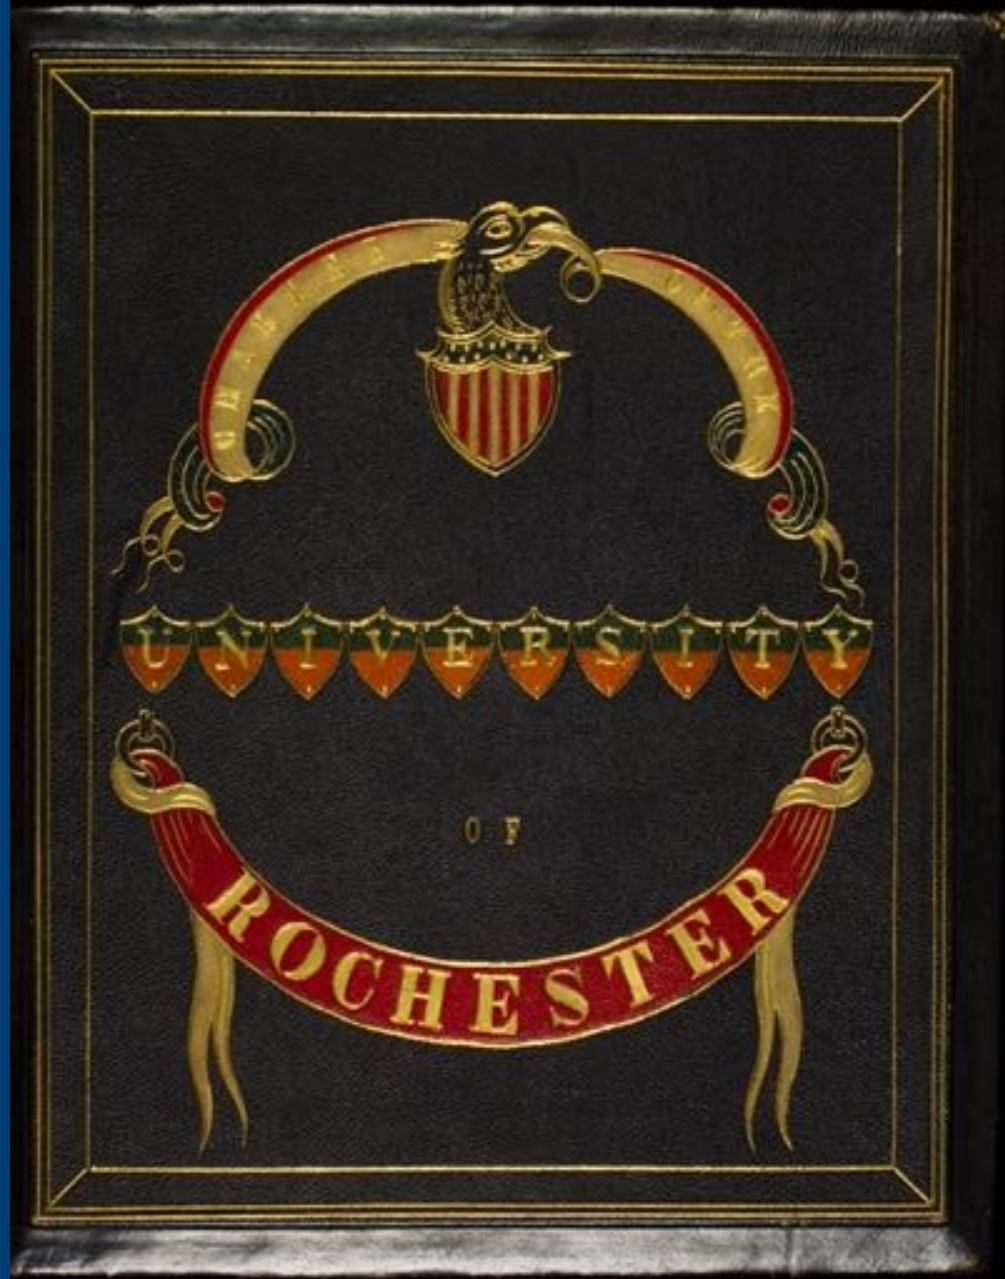

Please give my best regards to Dorothy.
Affectionately
"Dix"

Rochester's Great Opportunity

A great medical school and teaching hospital have been given to the University of Rochester. They are being erected from the interest on the \$9,000,000 given by the General Education Board and George Eastman, and the \$1,000,000 given by Helen Strong Carter and Gertrude Strong Achilles, daughters of the late Henry A. Strong. The principal insures the maintenance of school and hospital for all time and provides the means for the most intensive medical research work. Think what this will mean in the prevention and treatment of disease!

The new Municipal Hospital, being built by

the City of Rochester, will have the benefit of the diagnostic, laboratory and other facilities of the medical school. Think what this will mean to the sick!

The Dawn of Greater Possibilities

These gifts, together with the adequately endowed Dental Dispensary and the Eastman School of Music, open up great possibilities for the development of a great university—a university that will make Rochester an outstanding scientific, educational, art and musical center. Think what this will mean to us as citizens and property owners in the increased fame, importance and prosperity that would be Rochester's!

But the University can become great only if the College of Arts and Science—its fundamental
