

Attention Doctoral Graduate Students

Are you in the field of Biomedical Engineering, Brain & Cognitive Sciences, Computer Science, Electrical & Computer Engineering, Neuroscience or Optics?

The University of Rochester's
PhD Training Program on Augmented and Virtual Reality
is looking for PhD candidates who desire cross-training experience to pair with their existing studies.

The deadline is fast approaching!

For Paid Fellowship Applications, apply **by July 25**

(The funded fellowships can be offered to US citizens and permanent residents only)

For General Trainee Program apply by **August 15**

Don't miss out on this unique experience!

Full information on this program is available at our website:

PhD Training Program on Augmented and Virtual Reality

**Apply Now for this Opportunity at:
Application Form for Traineeship and Fellowship**
