Accessing Forms in CCC

CCC Forms are accessed through a main menu tab.

The forms page has several features:

1. Search
2. Available Forms
3. View Submissions

Searching
The search feature uses Keywords to find related forms. For example: Travel.

You can also search by the Organization hosting the form:
Available Forms
Available forms are all of the active, public facing forms. From this menu you can start or continue a form if you have one already in progress.

Forms with a ★ next to them are ones you may need frequently, or could be of high importance during the specific academic period.

View Submissions
The view submissions button will take you to your individual user Submissions window. Here you can review Form, Election, Organization Registration, and Event submissions, if any.
