

ART OF TECHNOLOGY
Look of Laptops

STUCK ON YOU: Bringing a personal flair to a ubiquitous piece of technology, students have long decorated their laptops and other pieces of personal technology as a way to convey their personalities and perspectives. In addition to livening up sometimes nondescript surfaces, the popular stickers also make particular machines—and people—easier to identify in a crowded library. We asked one of our student employees, Nick Foti '19, an economics major from West Seneca, New York, to spend some time in River Campus Libraries this spring to document a few examples of the latest in computer graphics.
