Vaccination Compliance Checked

The University instituted a COVID19 Vaccination requirement for all graduate and undergraduate students for the 2021-22 academic year. As part of the move-in process, vaccination compliance will be checked upon your arrival to the Valentine Lot – the starting point for the move-in process. If you have not uploaded a copy of your vaccination card to UHSConnect, now is the time to do so. Any students arriving from international locations and who are vaccination compliant will need to receive a rapid COVID19 test with a negative result as part of the move-in process.

Non-vaccinated students (including those students with medical or religious exemptions) will need to have the rapid test with a negative result. Those students without a vaccination or medical or religious exemptions will have an opportunity to receive their first of two vaccinations at move-in.

This will occur at our UHS clinic at the Valentine move-in site.

Students who refuse to vaccinate or get an approval for religious or medical exemption will not be allowed to move-in.

UHS must receive documentation of your COVID vaccine status in UHSConnect before you arrive on campus. Please do not ignore this request to upload your documentation if you haven’t already done so. Failure to do so before your arrival on campus will lead to problems with move-in and registration. You will find information about this requirement on the University's COVID-19 Resource Page.

Other important details about uploading to UHSConnect:

When uploading your documentation into UHSConnect, be sure to upload both sides of your vaccine card. It is essential that your documentation includes your name, the date(s) you received the vaccine, and the vaccine’s name.

You will not receive an immediate confirmation after uploading your information. Do not upload your card multiple times; it slows down the process if you enter your information more than once.

If there is a problem with your upload, UHS will contact you for clarification via a secure message on UHSConnect.

Please wait at least 1-2 business days before checking UHSConnect to see that your upload was successful.

A good practice is to take a photo of both sides of your vaccine card to have available on your phone. That way you will have easy access to show proof of vaccination, if asked.

Please contact hhf@uhs.rochester.edu with any issues regarding registration for UHSConnect.
