ELICITING PRIOR KNOWLEDGE in remote/online settings**REFLECTIVE JOURNAL**

Keeping track of your decisions and their outcomes will help you get better at this practice.

Fill the form below each time you use this practice, then review all your notes to notice patterns.

EXAMPLE:

Entry (date/context/lesson): (7/01/20) PD on “Leveraging online technologies for K-12 remote teaching”

Brief description (including prompt used): As part of a preliminary assignment using Padlet, ask participants to “Share a memorable story about your experience teaching remotely during the COVID-19 pandemic”

Key decisions made (mark all those that apply):

WHEN:

- **X Prior** to a task
- At the **beginning** of a task (as part of the task itself)

Level of PRIVACY:

- **X Public** (shared with the class)
- **Private** (shared only with instructor)
- **Anonymous**
- **Not shared**

RECORDS created:

- **X Individual**
- **Collective** (class)
- **None**

What worked/didn't work and why: Almost everyone did share a story, and it really helped me identify, in an indirect yet powerful way, what individual participants experienced as key challenges and opportunities of remote teaching – so I could keep those into consideration

What you may want to do differently next time: Make it part of online introductions

Entry (date/context/lesson):

Brief description (including prompt used):
